Attachment A

Insurance benefits at least equivalent to:

- a) Public hospital – admitted patient treatment, a benefit equal to the State and Territory health authority gazetted rates for ineligible patients for:
 - overnight and day only hospital accommodation (all costs including: all theatre, intensive care, labour wards, ward drugs);
 - emergency department fees that lead to an admission;
 - admitted patient care and post operative services that are a continuation of care associated with an early discharge from hospital.

Note: for the purpose of clarity this includes all admitted treatments covered by the Medicare Benefit Schedule.

- b) Surgically implanted prostheses – no gap prostheses and gap permitted prostheses as listed in the Private Health Insurance (Prostheses) Rules 2007: Benefit at least equal to 100% of minimum benefit amount listed.
- c) Pharmacy – all PBS listed drugs that are prescribed according to the PBS approved indications, that are administered during and form part of an admitted episode of care - a benefit equal to the PBS listed price in excess of the patient contribution.

Note: For the purpose of clarity, this definition is intended to include the cost of PBS listed drugs administered post discharge – if they form part of the admitted episode of care.

- d) Medical services – admitted medical services with an MBS item number – 100% of the Medicare Benefits Schedule fee, or less if the patient is charged less.
- e) Ambulance services – 100% of the charge, that is not otherwise covered by third party arrangements, for transport by ambulance provided by, or under an arrangement with, a government approved ambulance service when medically necessary for admission to hospital, emergency treatment on-site, or inter-hospital transfer for emergency treatment.

Note: For the purpose of clarity, this definition is intended to include inter-hospital transfers that are necessary because the original admitting hospital does not have the required clinical facilities. It does not extend to transfers due to patient preferences.

These waiting periods are served concurrently.

To comply with the minimum level of health insurance an insurer must agree to:

- grant a member who seeks to transfer between Australian based insurers, continuity of cover for up to 30 days from the date they leave the previous insurer; and
